

ISPPP 2020

November 8 – 11, 2020, Porto, Portugal

ISPPP 2020 – Sponsorship and Exhibition Opportunities

The ISPPP conference series is a well-established scientific event taking place alternately in Europe and the US since November 1981. In 2020 the 40th edition of this conference will be held on November 8 – 11 in Porto, Portugal (www.isppp.net). The scientific committee warrants an excellent scientific program with renowned key note speakers in the field of biomolecules and molecular assemblies' separation.

ISPPP 2020 will attract more than 100 participants from universities, research institutions and industry working in the field of purification of biopolymers. Your representation on this scientific event will allow you to contact and network with decision-makers from academia and the biopharmaceutical industry. You will also have the possibility to actively participate in the scientific event by presenting your latest developments in an oral or poster presentation (after submission to review by the scientific committee). In order to maximize networking possibilities the exhibition will be integrated into the coffee break area.

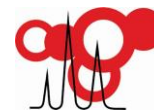

Your sponsorship enables us to give a young investigator's award covering travel and registration costs to an excellent young researcher chosen by the scientific committee as well as poster prizes to the three best posters presented at ISPPP 2020. Furthermore, your contribution enables us to keep registration fees low for students and academia which facilitates the access to ISPPP 2020 also for scientists from less-privileged countries.

We offer different sponsoring and exhibition packages but individual requests for tailor-made sponsorships are welcome. In order to maximize the effect of your representation on the conference home page we would appreciate your response as soon as possible.

We are looking forward to welcoming you at ISPPP 2020.

Yours sincerely,

Cristina Dias-Cabral, Conference Chair

Sponsoring & Exhibition Opportunities

As a sponsor at ISPPP 2020 your organisation will be associated with high level scientific research & development in the field of separation of biomolecules.

The conference is expected to attract more than 100 people from universities, research institutions and companies from all over the world.

We offer the sponsoring and exhibition packages listed below but individual requests for customized sponsorships are welcome. In order to maximize the effect of your sponsoring representation on the conference home page we would appreciate your response as soon as possible.

Basic package: is included in all sponsoring packages:

- Sponsor logo on ISPPP 2020 webpage (www.isppp.net, linked to the sponsor's homepage)
- Name on sponsor list in conference program
- Logo displayed on meeting room slideshow
